## Compucom Finance, Inc.

**OVERVIEW** Compucom Finance, Inc. (CFI), and its predecessor Compucom Research, Inc. founded in 1982, manage currency trading accounts for high net worth individuals, international investors and multinational corporations.

**PERFORMANCE RECORD** CFI manages US\$560 million on a discretionary basis. CFI's "real time" performance record over the last four years is shown below on an "after-fee basis" (fees are 20% of new profits plus 2% management fee, using a 3:1 leverage ratio). The results are verified and monitored by an independent Certified Public Accountant. All accounts are traded the same way. Investors should be aware that historical results do not assure or guarantee that future results will be the same or better since future results will be influenced by the then prevailing market environment.

**Trading Performance**  
(Annual returns in U.S. Dollars)

# Currency Management Account

**T**HE WORLDFOLIO CURRENCY MANAGEMENT ACCOUNT, FROM AMERICAN EXPRESS BANK, IS A DISCRETIONARY LEVERAGED FOREIGN EXCHANGE

account that provides the opportunity for substantial returns while limiting potential losses. Administered

by American Express Bank, and guided by select independent specialists, the Worldfolio Currency

Management Account offers clients a professionally managed currency port-

folio backed by our global capabilities and expertise.

The Bank itself will execute all transactions, trading in

freely available currencies on a leveraged basis.
